Medical Care Plan

Taking pet care to the next level.

A Medical Care Plan For Your Peace of Mind

No matter how hard we try to make your pet comfortable, some pets will be stressed during their stay because they are separated from you. As with humans, stress can cause pets to develop symptoms like diarrhea, vomiting and even appetite loss.

Our Medical Care Plan provides, for a nominal fee, coverage for expenses related to treatment of your pet for illness or injury during and immediately following your pet's stay.

Should your pet exhibit any illness or injury while at our facility, we will arrange treatment for your pet at the Canine Companion Veterinary Hospital.

If we determine, in our sole discretion, that your pet cannot properly be treated at our veterinary hospital, the Medical Care Plan will pay for treatment of your pet at another facility approved by us.

The Medical Care Plan will pay up to a combined maximum of \$500 for covered veterinary, surgical or medical treatment of your pet.

What's Covered

- Expenses related to treatment for illness or injury while in the care of Canine Companions, Inc. for a covered pet.
- Payment of a combined maximum of \$500 for covered veterinary, surgical or medical treatment of your pet at Canine Companions Veterinary Hospital or another facility approved by us.

What's Not Covered

- Pre-existing medical conditions (examples include, but are not limited to, cancer, epilepsy, diabetes, hip dysplasia, congenital abnormalities, etc.)
- Pre-existing illness or injury
- Behavioral issues
- Vaccinations
- Diarrhea (exception: owner brings own dog food)
- Treatment not provided at Canine Companions Veterinary Hospital unless approved by us in advance
- Injuries resulting from same family multi-pet boarding
